13. Mini-chopper blade.

14. Mini-chopper lid.

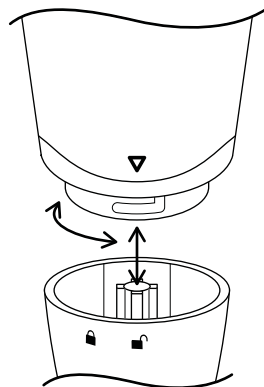

Congratulations on the purchase of your Russell Hobbs Stick Mixer. Each unit is manufactured to ensure safety and reliability. Before using this appliance for the first time, please read this instruction booklet carefully and keep it for future reference. Pass it on if you pass on the Stick Mixer.

When using electrical appliances, basic safety precautions should always be followed.

USING THE MIXER SHAFT

The mixer shaft is ideal for preparing sauces, soups, cocktails, milk-shakes, mayonnaises and baby food preparations.

- Connect the shaft to the motor unit by aligning the arrow ▼ on the motor unit with the unlocked symbol ■ on the shaft. Twist so that the locked symbol ■ and the arrow symbol ▼ are aligned, and the shaft and the motor head are tightly fitted together.
- Insert the plug into a wall power outlet and switch the outlet on.
- To avoid splashing, place the mixer shaft into your preparation before operating the mixer.
- Press and hold the Low (I) or High (II) speed buttons to start the motor.
- Make a rotating, up and down motion to obtain even blending of the food.
- Release the button to stop the motor.
- After use, switch off the wall power outlet and remove the plug.
- To disengage the mixer shaft accessory from the motor unit, twist the shaft so that the arrow ▼ on the motor unit aligns with the unlocked symbol ■ on the shaft.

NOTE: Do not operate the stick mixer for more than 1 minute at a time. After operating the appliance continuously for 1 minute, let it cool down for at least 2 minutes before operating again.

USING THE WHISK

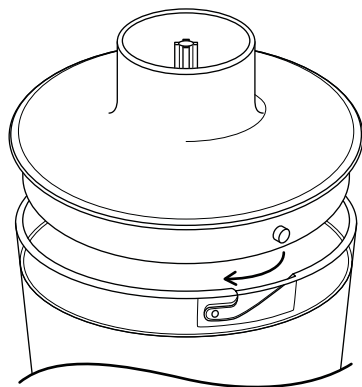

The whisk is ideal for preparing pancake mix, stiff egg whites, Chantilly cream, etc.

- To assemble the whisk, insert the shaft of the balloon into the small end of the whisk drive and push in until it clicks into place.
- Connect the whisk to the motor unit by aligning the arrow ▼ on the motor unit with the unlocked symbol ■ on the whisk. Twist so that the locked symbol ■ and the arrow symbol ▼ are aligned, and the whisk and the motor head are tightly fitted together.
- Insert the plug into a wall power outlet and switch the outlet on.
- Press and hold the Low (I) or High (II) speed buttons to start the motor.
- Release the button to stop the motor.
- After use, switch off the wall power outlet and remove the plug.
- To disengage the whisk from the motor unit, twist the whisk so that the arrow ▼ on the motor unit aligns with the unlocked symbol ■ on the whisk.

USING THE MINI-CHOPPER

The mini-chopper is ideal for chopping parsley, onions, hazelnuts, bread crumbs, biscuits, baby food, etc.

- Sit the mini-chopper blade onto the central axis in the mini-chopper bowl.
- Place the food into the bowl.
- Fit the lid onto the mini-chopper bowl, aligning the notches on the lid with the slots on the bowl and twist clockwise until the lid snaps into place.
- Fit the motor unit onto the lid, aligning the arrow ▼ on the motor unit with the unlocked symbol ■↻ on the mini-chopper lid and twist clockwise to align the locked symbol ■ and the arrow symbol ▼.
- Insert the plug into a wall power outlet and switch the outlet on.
- Press and hold the Low (I) or High (II) speed buttons to start the motor.
- Release the button to stop the motor.
- After use, switch off the wall power outlet and remove the plug.
- To disengage the motor unit from the mini-chopper lid, twist the motor unit anti-clockwise so that the arrow ▼ on the motor unit aligns with the unlocked symbol ■↻ on the mini-chopper lid.
- To remove the lid from the mini-chopper bowl, twist the lid anti-clockwise to unlock.

USING THE MINI CHOPPER BOWL IN A MICROWAVE OVEN

You can use the mini-chopper bowl to heat up liquid preparations (soups, etc) in a microwave oven providing you do not add fat and that the metallic central axis of the bowl is covered by the preparation.

PRACTICAL HINTS

- The preparation must at least cover the lower part of the mixer shaft for the mix to be successful.
- Remove the cooking utensil (e.g. saucepan) from the source of heat before blending hot preparations.
- Leave cooked foods to cool for a while before blending/mixing.
- Do not blend food and liquids at a temperature of 80°C or higher.
- For fibrous foods (leeks, celery, asparagus, etc) clean the blender shaft regularly during use. Follow the safety instructions for disassembly and cleaning.
- For fruit-based preparations, first cut up the fruit into manageable sized pieces and remove pips and stones.
- Use short bursts only (5-10 seconds each) when processing hard foods like coffee beans, ice cubes, sugar, cereals and chocolate.
- Do not use the mixer shaft or the whisk in the mini-chopper bowl.

CLEANING

IMPORTANT: Always unplug from the wall power outlet before cleaning.

- Clean the mixer shaft (blade facing upwards), whisk (whisk side facing upwards), beaker, mini-chopper blade and the mini-chopper bowl in the dishwasher.
- Clean the mixer shaft immediately after each use. If the plastic parts become discoloured by food like carrots, rub them with a cloth soaked in cooking oil and then clean as usual.
- Do not immerse the motor unit, whisk drive or mini-chopper lid in water or place in a dishwasher. Clean them with a damp cloth and warm soapy water.

When using electrical appliances, basic safety precautions should always be followed, including but not limited to the following:

IMPORTANT SAFEGUARDS

1. To protect against electrical hazards do not immerse the power cord, plug or stick mixer motor unit in water or any other liquid.
2. Do not use outdoors or in damp or moist areas.
3. Always use the appliance handles when handling.
4. Care should be taken when handling the sharp cutting blades, emptying the bowl and during cleaning. Use a glove or a towel for safety.
5. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
6. Always turn off and unplug from the power outlet before cleaning or removing any part of the appliance.
7. Do not operate this appliance with a damaged cord/plug or after the appliance has malfunctioned, been dropped or damaged in any manner. Contact Customer Service for replacement, examination, repair or adjustment.
8. There are no user serviceable parts. If repairs are required, they must be performed by the manufacturer or a suitably qualified person in order to avoid a hazard.
9. Do not use on an inclined plane or unstable surface.
10. To disconnect, switch off the wall power outlet, then grasp and pull the plug from wall outlet. Never pull by the cord.
11. Keep hands and utensils away from moving blades when in use to prevent the possibility of severe personal injury and damage to the stick mixer. A plastic/silicone scrapper may be used, but only when the stick mixer is not running.
12. Be certain the mini-chopper lid is securely fitted and all fittings such as blades are secure before using.
13. Do not use the stick mixer without the attachments fitted.
14. Always cut food items into manageable pieces before processing.
15. Do not use the stick mixer for extended periods of time. The stick mixer works best in shorts bursts.
16. Ensure the stick mixer is switched off before removing processed contents.
17. Do not overfill the stick mixer containers.
18. Do not place on or near any heat sources.
19. Store the blades in a safe location out of reach of children or infirm persons.
20. Follow the instructions when cleaning this appliance.
21. Clean the appliance after each use.
22. Do not use the appliance for other than its intended purpose.
23. This appliance is not a toy. Children should be supervised to ensure they do not play with this appliance.
24. This appliance is not intended to be operated by means of an external timer or separate remote control system.

CAUTION: *the blades are extremely sharp. Handle with care.*
